

Amazing Reality

AMAZING REALITY

(sing to tune of "Amazing Grace")

Amazing things I see each day
Before my very own eyes
Things that can not be explained away
They are real and are not lies

'Twas thinking mind and open eyes
That allowed me to find
All the wonder that in reality lies
Available to anyone with open mind

I live a life with no need for delusions
To enjoy all of life's grandeur
There is no need for grand illusions
When amazing reality has such allure

There is beauty in all that is real
I am real and believe you are too
Think about it and here is the deal
Amazing Reality shows the world to you
