

Saint Flynt

Larry Flynt, publisher of Hustler Magazine is a true hero and a saint. Larry Flynt has always stood up for free speech and free expression, often to the point of him landing in jail. Larry always has, and still is, being pursued by forces who would take away our liberties and freedoms. As depicted in the movie, "The People vs. Larry Flynt", Larry took the case of free speech to the United States Supreme Court and won his case against the Reverend Jerry Falwell who sued him over Hustler's fake ad indicating that Falwell had sex with his mother. If not for Larry Flynt's victory, the Church of Reality wouldn't be able to publish the truth on the web as we do today.

Recently, Larry Flynt has exposed the sexual trysts of famous "big fish" Republicans who pride themselves on being morally superior based on their mating habits. Larry has, at great personal expense, and out of a sense of civic duty, shown what hypocrites these holier than thou Republicans are. Larry has exposed the hypocrisy of putting the President, or anyone else for that matter, on trial for lying about getting a blow job in a society that is afraid to face the fact that if not for sex, we wouldn't be here.

Larry has throughout his life strived to expose reality for what it really is. And at great personal sacrifice has defended our rights to speak freely, especially about issues that society doesn't have the courage to face. His battle has resulted in his being shot by those who would silence the truth, and now he's in a wheelchair. Nonetheless, in spite of being shot, Larry Flynt continues to fight the good fight, to look at reality the way it really is, and therefore has achieved sainthood in the Church of Reality.
